

Photonics Society at UCSB

An IEEE Photonics Society Student Chapter

In collaboration with the UCSB organizations:

CSEP

Women in Photonics/Manufacturing Week

October 3rd – 7th
Tours of local companies

Local women in photonics/manufacturing will be leading tours of their companies
(men & women are invited to attend).

Visit our website to reserve your spot at one of these tours!

Friday Oct. 7th, 3:30pm–5:00pm
41 Aero Camino, Goleta, CA 93117

Led by Dr. Jenna H. Campbell & Rebekah Norris, the tour will include:

- A presentation about the company's laser and photonics technologies and how they are used
- A tour of the facility in which the specialized lasers are made and tested
- A Laser Demonstration

Research Cleanroom

Thursday Oct. 6th, 3:30–5:00pm
Engineering Sciences Building (Lot #10), UCSB

Tours will be in groups of 5, led by:

- Leah Kuritzky from the UCSB research group of Prof. Shuji Nakamura
- Biljana Stamenic, UCSB Nanofab staff
- Paula Heu from Crystalline Mirror Solutions

Please see the Photonics Society @ UCSB website for the full schedule!
Company Tours have limited space, so **registration on our website is required.**
