

FUSE Holograms Activity: Smartphone Holograms

Making the hologram projector:

1. Cut out the template on the transparency.
2. It is important that the cuts are straight!
3. Fold along marked lines and tape together

Viewing instructions:

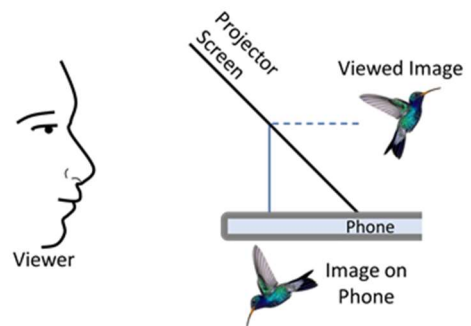

1. Turn up the screen brightness on your phone for the best experience!
2. Choose a hologram and enter the URL into your phone's browser, or scan the provided QR code.
3. Make the video full screen on your phone.
4. Place the hologram projector in the center of the video so that the sides are aligned with the images on your phone's screen.
5. Look into the sides of the projector to see your hologram!
6. Try it with a mirror instead. Does it still work? What's the difference? Why?

Please be sure to silence your phones so the sound will not distract the other families at FUSE!
